

will-change: transform

opacity scale rotation translation

# Off-main-thread animations

- ✓ Animated elements must be on their own layers, use **will-change: transform**
- ✓ Not all CSS properties can be animated by compositor, animate **opacity, scale, rotation, translations**

Height/Width -> Scale

Blur/Background color -> Opacity

Top/left -> Translate3d

⚠ Do not overuse layers. You may exhaust memory.

**DEMO**
